**To facilitate printing, binding  
and limiting the file size,  
the memoirs have been divided into  
10 booklets of 24 to 48 pages, plus 3 appendices.**

**Despite the fact that these memoirs are being formatted on a computer with 6 GB of RAM, the computer slows down whenever the file size exceeds about 90Mb. This Volume 1, with 24 pages of text and photos, is over 90Mb. Hence volume pages have been limited by the file size.**

**There are also 3 Appendices with reproductions of selected figures and maps at a larger scale for clarity.**
