

The Engineering Institute of Canada

Fellow Citation 2001

Professor Dougal R. McCreath - *A Member of CGS*

Professor McCreath is a graduate in civil engineering from the University of Manitoba with an M. Eng. In geotechnical engineering from the University of Alberta, a D.I.C. in concrete structures from Imperial College and a Ph. D in fracture mechanics from the University of London.

He began his career in industry as a Rock Mechanics Engineer with Acres, was a Principal in Golder Associates and then a professor in the school of engineering at Laurentian University where he is also Director of the Elliot Lake Research Field Station.

He has an international reputation through his more than 50 papers published primarily in the field of rock engineering and for his extensive international consulting work in the practical solution of geo-technical engineering problems in civil and mining projects.

In his current incarnation he provides the School of Engineering at Laurentian University with leadership. For example, he has received the “Professor of the Year” award on several occasions.

Madam President, I present to you, Dougal R. McCreath, Fellow of the Engineering Institute of Canada.
