

Darrel Danyluk - nominated by the Canadian Society for Civil Engineering

After a distinguished 30-year career with Reid Crowther & Partners in Alberta where he was Vice President Alberta and Northwest Territories, Vice President Marketing and then Chief Operating Officer, Darrel John Danyluk joined the University of Calgary as Executive Director of the Calgary Centre for Innovative Technology. He currently brings his wealth of management expertise to the University of Calgary's Schulich School of Engineering as the Distinguished Industrial Visitor for the benefit of graduate and undergraduate students and academic staff. His technical background and strengths are in water delivery and treatment, and transportation engineering including alternate delivery mechanisms; Darrel's career has included water-related projects in Haiti, Mexico, China and Nigeria.

Darrel Danyluk is a visionary who has superior leadership skills in management, operations, marketing and finance and is recognized for his leadership of industrial and professional organizations at national and provincial levels. He has admirably served the engineering profession in this country as a Board member of the Association of Consulting Engineers of Canada and the Alberta Building Standards Council; and as President of the Consulting Engineers of Alberta, President of APEGGA and President of the Canadian Council of Professional Engineers. Darrel Danyluk is currently Canada's Representative at the World Federation of Engineering Organizations.

Darrel is a member of APEGGA, the American Society of Civil Engineers and the Canadian Society for Civil Engineering and has been an active Rotarian for many years. He received a Fellowship from the CSCE in 2002, and this evening we are only too pleased to honour this distinguished engineer by conferring upon him the title EIC Fellow.

Ladies & gentlemen and Mr. President, please welcome Darrel Danyluk as a Fellow of the Engineering Institute of Canada.
