

Hossam Kishawy

Canadian Society for Mechanical Engineering

Hossam Kishawy is a professor and Assistant provost research at UOIT. Prior to this his new appointment, he served as the Director of Mechanical, Manufacturing and Automotive engineering in the FEAS at UOIT.

Before joining UOIT he was a tenured faculty member at University of New Brunswick where he served as director of Graduate studies. He has received several awards including University Research Merit award, and was nominated for best teaching award and the University Research Scholar Award. He also received the prestigious Discovery Accelerator Supplement from NSERC National Science and Engineering Research of Canada in recognition of his outstanding research achievements.

His research interests cover several aspects of processes modelling, optimization, and design. He is a senior member of the SME, Fellow of the ASME, and a member of PEO.

In recognition for his industrial, teaching and research experience particularly in manufacturing area, we are pleased to confer this most deserved accolade.

Ladies & gentlemen and Mr. President, please welcome Hossam Kishawy as a Fellow of the Engineering Institute of Canada.
