

**Jason Jianjun Gu - nominated by IEEE Canada**

Dr. Gu is a director of the Robotics Laboratory for Biomedical, Rehabilitation and Assistive Technology and Full Professor of Electrical and Computer Engineering in the Faculty of Engineering at Dalhousie. He is an expert in mobile robots surgical robots and biomedical engineering. He is an internationally recognized researcher in the areas of network control, robotics and teleoperation.

Dr. Gu has contributed extensively to the development of new engineering Programs at Dalhousie University and professional societies. He was the ASEE representative for the Faculty of Engineering Dalhousie. He has served as the councilor, Vice-chair and Chair for IEEE CAS. He has also been the key organizer for many IEEE conferences.

Tonight, the EIC is honoured to confer this most deserved accolade.

Ladies & gentlemen and Madam President, please welcome Jason Jianjun Gu as a Fellow of the Engineering Institute of Canada.
