

Shahrokh Valaee - nominated by IEEE Canada

Professor Shahrokh Valaee is the founder and Director of the Wireless and Internet Research Laboratory at the University of Toronto and serves as Associate Chair for Undergraduate Studies in the Edward S. Rogers Sr. Department of Electrical and Computer Engineering.

He has made significant contributions in the fields of signal processing and communications networks throughout his 20 year career. In particular, his work on distributed source localization has created a new research area and established him as a leader in the field of signal processing.

Shahrokh was the Technical Program Committee Co-Chair of the 2011 IEEE International Symposium on Personal, Indoor and Mobile Radio Communication and was instrumental in bringing this symposium to Canada. He was the Co-Chair for the Wireless Communications Symposium of IEEE GLOBECOM 2006.

Tonight, we honour a leader in electrical and computer engineering by elevating him to the grade of Fellow of the Engineering Institute of Canada.

Ladies and Gentleman and Madam President, please welcome Shahrokh Valaee as a Fellow of the Engineering Institute of Canada.
