

The Engineering Institute of Canada

EIC Fellow – 2017

Leonard Lye

Nominated by the Canadian Society for Civil Engineering

Leonard Lye is the Associate Dean for Graduate Studies and Professor of Civil Engineering in the Faculty of Engineering and Applied Science at the Memorial University of Newfoundland. He is a Fellow of the Canadian Academy of Engineering, the Canadian Society for Civil Engineering, and Engineers Canada. His research interests involve environmental statistics, design and analysis of experiments, hydrology, and hydraulics. He has produced over 140 academic publications including 46 refereed journal papers and one book. He is also the inventor of 5 engineering educational devices and software.

Leonard has been recognized for his exemplary achievements and leadership as educator, researcher and administrator. Particularly he has made significant contributions to the Canadian civil engineering education and profession over the past 30 years. He has received many awards and honours including:

- President's Awards for Distinguished Teaching and for Exceptional Community Service of Memorial University,*
- Lifetime Achievement Award of Tetra Society of North America,*
- Teaching Award and Community Service Award of Professional Engineers and Geoscientist Newfoundland and Labrador,*
- Teamwork Award of Government of Alberta, and*
- Outstanding Contribution Award of CSCE Newfoundland and Labrador Section, Bridging the Gap Award of Recreation Newfoundland.*

Ladies & gentlemen and Mr. President, please welcome Leonard Lye as a Fellow of the Engineering Institute of Canada.
