

# The Engineering Institute of Canada

## EIC Fellow – 2017

**Mohinder Grover**

**Nominated by the Canadian Nuclear Society**

*Dr. Mohinder Grover has been a registered professional engineer in Ontario for 40 years, and a Fellow of Engineers Canada since 2010. Throughout his career, Dr. Grover has dedicated himself to enhancing his profession and the society-at-large through tireless volunteer contributions. A recognized authority in reliability engineering and quality assurance in nuclear power plant applications, Mohinder worked with distinction in Ontario Hydro/Ontario Power Generation (OPG), and in Atomic Energy of Canada Limited/Candu Energy Inc., for almost 40 years. He has also given many courses at conferences, universities and colleges. Since 1992, Dr. Grover has represented Canada on International Electrotechnical Commission's (IEC) technical committee responsible for developing international standards on Dependability.*

*In addition to volunteering for several charitable and humanitarian organizations, Mohinder mentors international engineering graduates to licensure by volunteering with Professional Engineer Ontario (PEO) and Skills for Change.*

*For his services to the profession and community, Dr. Grover has won many accolades and awards from OPG, AECL, PEO, Engineers Canada, IEC, and Government of Ontario. Dr. Grover is a member of Canadian Nuclear Society (CNS) and a member of the CNS Council Board of Directors. To promote technical exchanges, he has been actively involved with the organization of several CNS Conferences.*

*Ladies & gentlemen and Mr. President, please welcome Mohinder Grover as a Fellow of the Engineering Institute of Canada.*
