

The Engineering Institute of Canada 2018 Award Citation – EIC Fellow

Donna Jean Garrett Kilpatrick

Nominated by the Canadian Society for Chemical Engineering

A chemical engineer with a Master's in Engineering Management, Donna Jean Kilpatrick has over 35 years experience working in industry, private sector consulting, research, education and government. Her record of achievements represents a unique combination of engineering excellence as a practitioner, researcher, instructor and leader. Initially working in the chemical industry, she completed numerous projects which contributed to improved chemical plant operations as well as advancing industrial health, safety and environmental management.

Over the last 18 years, she has received numerous awards and citations for her engineering contributions in the federal government for improving air quality in Canada, addressing greenhouse gas emissions, climate change and contaminated sites as well as for the creation of new national technical standards for the design, construction and maintenance of civil marine infrastructure.

In serving her professional society, Donna Jean is the current President of the Canadian Society for Chemical Engineering. She has also served on Executive Boards of the Real Property Institute of Canada and the Air and Waste Management Association.

Ladies and gentlemen, and Mr. President, please welcome Donna Jean Kilpatrick as a Fellow of the Engineering Institute of Canada.
