

Dan Zhang

Society for Mechanical Engineering

Dr. Dan Zhang is a Canada Research Chair in Robotics and Automation, and Full Professor in the Faculty of Engineering and Applied Science at UOIT. He is an expert in high performance reconfigurable robotic systems and their applications in manufacturing systems. He is an internationally leading researcher in the areas of parallel robotic machines and advanced manufacturing systems.

Dr. Zhang has contributed extensively to the development of new engineering programs at UOIT and the professional societies. He was the Director for Automotive, Manufacturing and Mechanical Engineering Programs of the Faculty of Engineering and Applied Science at UOIT between 2007 and 2009. He served as Director of Board of Directors at Durham Region Manufacturing Association, and is Director of Board of Directors of PEO, Lake Ontario Chapter.

Dr. Zhang is a Fellow of the CSME, Senior Member of IEEE, and a Senior Member of SME, and tonight, the EIC is honoured to confer this most deserved accolade.

Ladies & gentlemen and Mr. President, please welcome Dan Zhang as a Fellow of the Engineering Institute of Canada.
