

The Engineering Institute of Canada

2023 Award Citation

EIC Fellow

Bill Rosehart

Nominated by IEEE Canada and the Canadian Society of Senior Engineers

For over 25 years, Dr. William (Bill) Rosehart has been a passionate advocate for engineering research and education. First appointed as Schulich School of Engineering Dean in 2014, Dr Rosehart led the school to launch several new undergraduate, graduate, and transfer programs - expanding access to the engineering profession.

During his tenure as Dean, the school has welcomed record numbers of engineering students, has significantly expanded student work placements, and has supported faculty to secure more federal funding for high-impact research than ever before. He is a founding member of the Canadian Engineering Education Association (CEEA) and a champion for engineering education & student experience.

Dr. Rosehart is a Fellow of the Canadian Academy of Engineering and the Canadian Society of Senior Engineers (CSSE), where he currently serves as President Elect. He is also a past board member of the Petroleum Technology Alliance Canada, and the IEEE Power & Energy Society.

Ladies and gentlemen, and Ms. President, please welcome Bill Rosehart as a Fellow of the Engineering Institute of Canada.
