

# The Engineering Institute of Canada

## 2024 Award Citation

### EIC Fellow

***Thamir (Tom) Murad***

**Nominated by IEEE Canada**

*For over four decades, Dr. Murad has been a distinguished professional and a key figure in the engineering and technology landscape. While serving as the Engineering Leader at Siemens Canada, he founded and directed Siemens Canada Engineering & Technology Academy. His impactful leadership includes spearheading Work Integrated Learning Education and Skills Enhancement initiatives in collaboration with Canadian governments.*

*During his tenure as Head of Expert House & Engineering Director at Siemens Industry from October 2010 to 2014, he demonstrated exceptional leadership nationally, overseeing Industry Expert House Engineering Field Services and Activities across 20+ locations in Canada. With a wealth of experience, Tom has held senior leadership roles in esteemed organizations like JNE Consulting and AZZ - Blenkhorn & Sawle.*

*His extensive contributions extend beyond professional realms, reflected in his active involvement in numerous board memberships and professional associations, including serving as the President Elect of IEEE Canada, and Vice Chair of the IEEE (Global) Region-7 Board. Tom's commitment to education and professional development is evident through his membership in Post-Sec. Education Quality Board "PEQAB" and various other academic and engineering committees. His multifaceted expertise and dedication have made him a valuable asset to the engineering community and beyond.*

*Ladies and gentlemen, and Ms. President, please welcome Tom Murad as a Fellow of the Engineering Institute of Canada.*
